

Capital**Corrugated**  
& Carton

A FLEXIBLE Service & Attitude

## CAPITAL CORRUGATED IS NOW **CAPITAL CORRUGATED & CARTON**

December 2008

What started out to be a search for a printing press, turned out to be much more. Capital Corrugated had been buying out their Litho top sheets for point of purchase displays and boxes and wanted to purchase a litho press to control the process, costs and provide superior customer service.

An opportunity came when Kramer Carton Company of Sacramento, a folding carton manufacturer for 67 years, made the decision to close. The owners of Capital Corrugated have been personal friends and business associates with Kramer Carton since 1974. Capital Corrugated made the decision to purchase the customer list from Kramer Carton on November 30, 2008 and diversify into the manufacture of folding cartons.

Both companies sell to a diverse mix of businesses that maintain critical quality and service requirements. Several of Capitals customers were also Kramer customers. We are sorry to see Kramer Carton Company close the doors, but all of us at **Capital Corrugated & Carton** are excited by our new opportunities. With the assistance of some key Kramer Carton personnel, we will transition Kramer customers and build our new company.

### **OUR TEAM**

The two owners of Capital Corrugated and Carton have a combined 63 years experience in the corrugated box business. Understanding that it takes experience and state-of-the-art manufacturing equipment and systems to be successful in the packaging business, we have invested in new and late model used manufacturing equipment with a focus on reliability, quality and flexibility to manufacture a diverse mix of folding cartons.

With existing infrastructure and experienced personnel at Capital Corrugated & Carton, we are confident this new diversification will pose few challenges. Key individual personnel from Kramer Carton and other carton companies have extensive expertise in sales, pre-press, printing and finishing. Our existing corrugated work force and management along with these key folding carton employees, will be the new **Capital Corrugated & Carton**.

Our web site will soon incorporate new information regarding the folding carton division. Please browse the rest of our web site to learn more about our company. We appreciate your patience and support.

Sincerely,

*Dennis Watson and Jackson Angle*
